## American Pale Ale (APA), American IPA, American Double/Imperial IPA, Etc

The American IPA's color can range from very pale golden to reddish amber. Hops are typically used with a big herbal and / or citric character, bitterness is high as well. Moderate to medium bodied with a balancing malt backbone. Take an India Pale Ale (IPA) and feed it steroids, ergo the term Double/Imperial IPA. Although open to the same interpretation as its sister styles, you should expect something robust, malty, alcoholic and with a hop profile that might rip your tongue out.
